### THE COVER

The cover of this year's Town Report is a picture of Center Ossipee Inn. During the fall and winter of 1950-51 the Town of Ossipee received a really large amount of favorable publicity through this now famous Inn.

Articles about the Inn, and its proprietor, Jack Hill, appeared in Life, Time, News Week and Reader's Digest — all top flight publications of national circulation. These stories were in addition to newspaper and radio recognition.

Wholesome publicity such as this benefits a town both directly and indirectly and the citizens of Ossipee were gratified to see one of the Town's landmarks receive such recognition.

## MUNICIPAL COURT OF OSS�PEE

The year 1950 saw the highest level of activity the Ossipee Municipal Court has ever known. This is due in part to increased traffic density and greater fishing and hunting activity.

Court records are kept in accordance with state standards and are current at all times. The Justice maintains a Clerk of Court at his own expense. Both the Justice and Associate Justice belong to the State Association of Police Court Judges and have derived much benefit from the meetings.

The great majority of the people appearing in Court have been reasonable and courteous. As usual, the Sheriffs, State Police and Conservation Officers have been most conscientious protecting the public.

## STATISTICS PERTAINING TO THE LAKES REGION

The Lakes Region is the most important of the six New Hampshire Regions with respect to the recreation business.

This is shown by the division of assessed values of recreational property, by Regions, from a survey made by the State Planning and Development Commission.

Lakes Region	32%
Monadnock Region	14%
Seacoast Region	14%
White Mountain Region	18%
Dartmouth-Lake Sunapee Region	12%
Merrimac Valley Region	10%

The valuation of recreational property in the Lakes Region is 15 million dollars, compared to the total of 50 million in the state. In addition to which the valuation of Summer Homes in the Lakes Region is 12 million dollars, which is one-third of the state total.

Almost one-half of the Boys and Girls camps in New Hampshire are in the Lakes Region, this refers to 70 camps in the Region with a valuation of \$750,000.00.

There are 6,000 motor boats, registered in the Lakes Region, which is more than  $\frac{1}{2}$  of all boats in New Hampshire.

The gross income to the Lakes Region from the recreational business is thirty million dollars.

Recreation is the principal industry in the Lakes Region, although we are strong industrially with 15% of the population of the State our manufacturers produce 15% of the valuation of manufactured goods.

The Lakes Region comprises three cities and thirty-nine towns, with a population of 71,887 and assessed valuation of \$112,900,000.00.

The Lakes Region Association was organized in 1936 to promote the growth and prosperity of the Region in every way possible

During these fourteen years we have published and distributed more than a million booklets and folders, throughout the Eastern part of the country, and in many other states. In addition to which we have distributed thousands of local books and folders.

We sponsor each year the 4-H Fair at the Belknap Recreational Area and distributed \$500.00 in cash prizes to the contestants.

We conduct an annual Photo Contest and distribute cash prizes for the best pictures submitted. This project not only attracts many out of state people to our Region, but it gives us splendid pictures for our publications.

We are in constant cooperation with the New England Council, the State Planning & Development Commission, and many travel agencies.

When the Lakes Region Association was formed the Recreation business in the Region was determined by the State as sixteen million dollars, it now is thirty million dollars.

During the years we have been instrumental in attracting several new manufacturers to the Region.

We have assisted several of our towns in solving their problems and are anxious to help any town at any time.

The people of the state recognize by their votes that they approve the Regional setup, as 85% of all of the towns make appropriations to their Association annually and for the last three years every town in the Monadnock Region and all but two towns in the Mountain Region made their appropriation.

Being principally a recreational and residential Region it is interesting to note according to a national survey made by the Curtis Publishing Company that over eight billion dollars is spent each year for Recreation. Which sum is divided as follows:

- 44% for Hotels, Motor Courts & Restaurants
- 24% for Transportation and gasoline
- 22% for Retail Stores
- 10% for amusements, sports and miscellaneous purposes.

also that in 1949 approximately nine million dollars was spent for advertising and publicity by the several states.

All organizations in New Hampshire spent approximately \$175,000.00.

If we are to continue to get our share of the business, which benefits every citizen we must continue to publicize the Region.

Every town has much to gain by cooperation with the Lakes Region Association, which is endorsed by the State and the Governor.

The Lakes Region Association has been able to secure a few new small industries but have lost several

large ones owing to the fact that desirable space was not available. If all towns that have vacant space will notify the executive secretary giving full particulars we might be able to find an occupant.

The executive secretary has attended many meetings in the state and New England and has distributed booklets and folders to sportsman shows in Boston, New York and at expositions throughout New England. He has answered thousands of inquiries on all subjects and has distributed to real estate dealers many inquiries that have resulted in bringing to the region thousands of dollars of new assessed valuation.

We ask that our towns call on the Lakes Region Association for assistance at any time.

## REPORT OF FOREST FIRE WARDENS

Each year two hundred thousand forest fires annually burn over 36 million acres of the forest land of this great nation. This area is roughly the size of our New England states. Tens of thousands of man-hours costing over 40 million of dollars are used in combating these fires. They destroy valuable mature timber and new growth, and leave desolation and often death in their wake. With the large deficit in rainfall the past four to five years the need for extreme caution is great.

Every brush, grass or forest fire that you have in your town has its effect on you in several ways; such as increased taxes, loss of mature timber, marring of the landscape and spoiling the recreation value of our country side. It is safe to say that approximately 97% of the fires occurring in this state are man-caused and because all man-caused fires are preventable, remember — only YOU can prevent forest fire.

Our forest fire organization is doing a grand job in keeping our fires small, but the public in general is becoming increasingly careless in discarding matches and cigarettes. Another form of carelessness is the neglect to secure the required permit from the town fire warden to burn brush or use an incinerator in or near woodlands. It is YOU and YOU alone who can help correct this shameful waste of our natural resource by:

1. Seeing that your incinerator is tight and is sitting on clean ground.
2. Always clean a space about any open fire to prevent its spreading.
3. Never burn in dry windy weather.

4. In all cases a written permit is required from your town Fire Warden.

It is with your cooperation that this shameful waste of timber and money can be stopped.

## OSSIPEE NURSING REPORT

During January and February we were most fortunate in having Mrs. Edna W. Dube, R. N., as substitute during Mrs. Davis' illness.

Thru the cooperation of the State Board of Health the Orthopedic and Treatment Center Clinics have been of great benefit to former poliomyelitis cases, also to pupils needing orthopedic examination and corrective exercises under direction of State Board of Health physiotherapist.

The response of the parents to the Diabetic Test, given at school was most pleasing, 175 out of 194 pupils were tested. We thank the parents for their cooperation in this new safeguard of the children's health.

We are now working toward a dental clinic service for the school children and hope to have it in operation before close of 1951 school year.

Nursing Chairman

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Ossipee:

During the school year of 1949-1950 the teachers in the Ossipee schools were as follows: High School — Headmaster Philip Putnam, Van S. Evangelou, Miss Helen Timson, and Mrs. Elizabeth Brady. Elementary school Mrs. Edna Kennard grades 7 and 8, grades 5 and 6 Mrs. Mabelle Stevens, grade 4 Mrs. Florence Eldridge, grade 3 Mrs. Leda Knapp, grade 2 Mrs. Lillian Godfrey, grade 1 Mrs. Alice Loud, Corner School Mrs. Dorothy Webb.

At the beginning of the current year with the schools reorganized Mr. George Colby became Principal of the elementary school with the following teachers: grade 8 Mr. Richard Ladd, grade 7 Mrs. Dorothy Webb, grade 6 Mrs. Mabelle Stevens, grade 5 Mrs. Edna Kennard, grade 4 Mrs. Florence Eldridge, grade 3 Mrs. Leda Knapp, grade 2 Mrs. Lillian Godfrey, grade 1 Mrs. Alice Loud. Mrs. Marion Davis R. N. continues her efficient and valuable service as school nurse. All Ossipee teachers attended a 15-week extension course in elementary science teaching during the fall term of 1950.

At the 1950 Annual District Meeting the citizens voted to close the high school and transport the pupils to Kennett High School at Conway. The district also voted to appropriate sufficient funds to build an additional room on the high school building in order that all elementary pupils of the district could be accommodated in the building. It was further voted to appropriate funds for the purchase of busses to transport pupils to Kennett High School. The new room, now occupied by the first grade is probably the most modern and well appointed elementary room in

this section of the state. Two 48-passenger busses were bought and are now in operation transporting high school pupils to Kennett High School.

At the beginning of the current year 54 Ossipee pupils enrolled at Kennett High School, 7 at Spaulding High School, Rochester, and three in private schools making a total high school population of 64. One bus leaving Conway at 5:00 P. M. permits pupils to remain for assistance and participate in school activities. Reports from Principal George Davidson show that Ossipee pupils are doing a commendable grade of scholastic work and many are actively participating in school activities.

Costs of education in Ossipee for 1949-50 are shown by the figures below:

	Ossipee	State Average
Total cost per elementary pupil	\$141.57	\$208.57
Total cost per high school pupil	257.89	326.34
Tax rate for school purposes per \$1000 equalized valuation	15.92	17.98

High school tuition cost per pupil for the current year is \$160.00. This will be increased to \$200.00 next year. As near as can be determined at present the approximate cost of transportation per high school pupil is \$65.00 and should be about the same next year. Total number of high school pupils next year will be about 70.

For some years school board members of Supervisory Union No. 36 have discussed the matter of hiring a music supervisor for the union. Such a supervisor would provide instruction in both vocal and instrument work in the schools of the union. The supervisor's time would be allocated, principally, on

the basis of the number of pupils in the district. In some instances two rooms could be combined for instruction. In general the supervisor could spend about one hour each week in each classroom. In addition to actual instruction the supervisor would organize the work in music for the teachers to carry on during the rest of the week. It is usual for such supervisors to present one or more concerts at some central place with pupils from all districts participating. At the Supervisory Union Budget meeting held December 20, 1950 it was voted to recommend that a special article be inserted in each district warrant to see if the district will vote to appropriate its share of the cost of a music supervisor. The total cost of hiring a supervisor, including salary and travel expense is estimated at \$3200.00. Ossipee's share for next year would be \$806.72.

The active cooperation of the School Board, teachers, pupils, and citizens is gratefully acknowledged.

Respectfully submitted,

EVERETT H. BRASIER
